Abstract

In this Project I have describe 14 principle of Management and I have Show How the Google, Facebook, Amazon and all other organization follow the 14 principle of management and grow day by day. I read about 14 principle of management which is written by Henry Fayol's (Father of modern management) in 1916. 14 Principle of Management is also Known as Fayolism.

Plans and actions in an organization initially starts with decision making, which is done within the administration and management chambers. This encompasses laying structures of hierarchy; effective strategies and plans of what is to be done; how to achieve it including the required resources and procedures; and considering who is responsible in achieving the planned agenda within an organization.

KEYWORDS: Administration and Management, Management Principles, Organizational Efficiency, and Progress.
